

ZIKA THREAT

INVASIVE MOSQUITOES ARE ON THE MOVE

Have you or someone you know moved from these Southern California areas to the Sacramento region?

If so, you could have brought these mosquitoes with you putting area residents at risk for Zika, Dengue and Chikungunya!

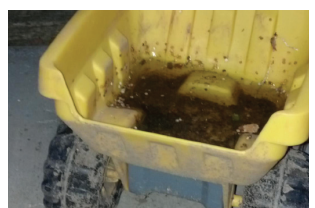

LAYS EGGS
IN CONTAINERS
AND PLANT
AXILS

Plant Saucers

Buckets

Outside Toys

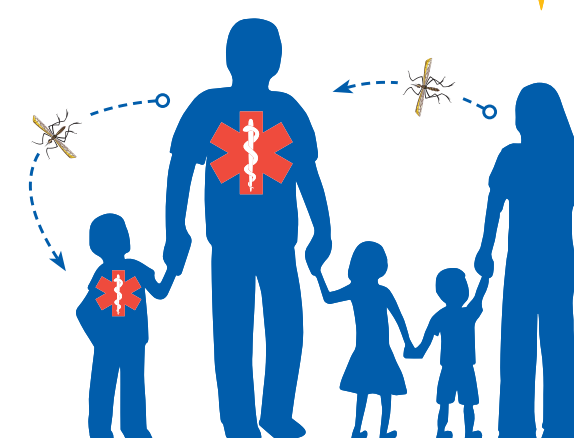

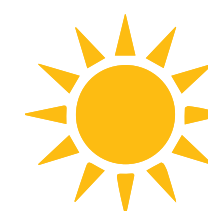

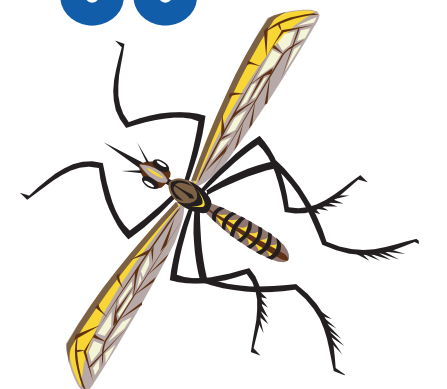

Pet Bowls

Plant axils are
where leaf
meets stem

EGGS CAN REMAIN DRY FOR
MONTHS, WAITING FOR THE
RIGHT CONDITIONS TO HATCH

HITCHING RIDES
IN MOVING TRUCKS

THESE ARE DAY
BITING MOSQUITOES
THAT PREFER TO
BITE PEOPLE

SACRAMENTO-YOLO
MOSQUITO
& VECTOR
CONTROL
DISTRICT

Remember to always report mosquito problems,
especially if you are being bitten during the day!
